Network Player/Preamplifier

The MOON 390 combines a superb DAC, Preamplifier, Network Player (MiND 2), and phono stage all into one compact chassis. Furthermore, it includes HDMI inputs and a high-quality headphone amplifier. Another point of view: it can be seen as an All-in-One without a power amplifier. Combined with any MOON power amplifier, you will have an enormously flexible and complete high-performance music system that will surely seduce you.
