

BOTW P&P ECO MKII

Improved power flow
Reduction of mechanical stress
Lower internal impedance & resistance

High quality PCB:
Double sided 2oz. copper
Gold plated finish

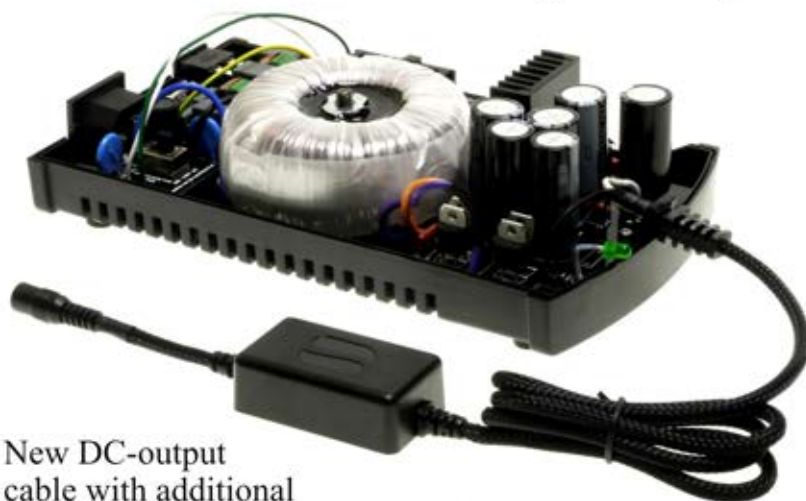

Upgraded internal wiring:
High quality silver plated
copper PTFE insulation

Better and thicker quality heatsink

Gold plated connector pins

Transformer: Electrostatic shielding and HF Magnetic shielding

Further upgraded:
Bulk capacitors
Reference-circuit
Split-current unit

New DC-output
cable with additional
shielding and sleeve

Made in EU
