

SILENT ANGEL

Munich M1T

Better sound, better life.

Product Features

SPECIALIZED MAIN BOARD

Expertly designed heat-sink on CPU, lowering 20 °C operating temperature; EMI absorber embedded, filtering all possible noises in the device itself.

ULTRA-HIGH SPEED NETWORK

Gigabit Ethernet interface as a real time-saver working with NAS or any large scale music data transmission.

ENRICHED AUDIO APPLICATIONS

Spotify Connect, Roon Ready, Airplay2, DLNA, USB Audio, via **VitOS Orbiter** to explore more streaming music services, and support MQA file.

FLEXIBLE PERIPHERAL EXTENSIONS

Balanced digital outputs support PCM 384KHz and DSD 5.6M at highest; M-IO*1, and M-LINK*1, Extra storage USB 3.0*2, and USB 2.0*1.
